

# Addition Fact Families

## Learning math facts using addition fact families

Below are the problems involving addition facts. The addition fact family may be consisting of three numbers or two numbers. Based on that, there can be four addition facts or two addition facts. To guide you, first two problems are done as an example. In rest of the problems the numbers are given, you need to write the addition fact family for those numbers.

1) 2, 6 and 8

Facts family below

$$2 + 6 = 8$$

$$6 + 2 = 8$$

$$8 - 2 = 6$$

$$8 - 6 = 2$$

2) 6, 3 and 9

Facts family below

$$6 + 3 = 9$$

$$3 + 6 = 9$$

$$9 - 3 = 6$$

$$9 - 6 = 3$$

3) 0 and 8

4) 3, 7 and 10

5) 1, 5 and 6

6) 0 and 9

7) 1, 7 and 8

8) 1, 9 and 10

9) 6 and 12

10) 9, 2 and 11

11) 8 and 16

12) 5, 6 and 11
